FLOOR DIFFUSER SERIE DS

FEATURES

DS diffuser is suitable to be mounted at floor level in environments where a particular thermal and acoustic comfort is needed. **DS** has a high capacity to reduce temperature difference between inlet air and requested temperature in the room.

PARTS

1. Diffuser
2. Support ring for installation in floating floors.
3. Support ring for installation in cement floors.
4. Damper for basket.
5. Powder-pick-up basket.

FINISH

- Steel (standard version) with inox grill (inox version).
- Epoxy powder paint RAL 9005.

ACCESSORIES

- Zinc-plated steel plenum with side connection Ø 125-160

INSTALLATION

The diffuser is installed fixing first the support ring suitable to the kind of floor; afterwards you can install the diffuser. In case the floor is not tight, the use of a plenum is foreseen.
